

## NFMGG2 Growth Medium Supplement (10x)

### Serum-Free Media Supplement for Suspension Chicken Cells

#### Description

NFMGG2 Growth Medium Supplement is a fully defined, animal-component-free formulation designed to support the growth of suspension-adapted chicken cells under serum-free conditions. The composition contains no undefined components, such as hydrolysates or extracts, enabling improved reproducibility, process control, and regulatory alignment.

Product	Storage	Shelf Life
NFMGG2 Growth Medium Supplement (10x)	-20 °C	One month

#### Product Use

For research and development only. Not for use in diagnostic procedures.

#### Safety Information

Read the Safety Data Sheets (SDS) and follow handling instructions. Wear appropriate PPE and use in an aseptic environment.

#### Preparation of Complete Media

- To make one liter of complete medium, add 100mL NFMGG2 Growth Medium Supplement (10x) to 900mL DMEM/F12. Mix and filter through sterile 0.22µm filter apparatus.
- Store complete medium at 4 °C.
- Before use, warm complete medium to the appropriate temperature.
